## catalog

Accent Decor has deep roots in the floral industry. Our founder's family emigrated from Holland, the floral capital of the world. They were some of the first to import flowers, because of their belief that everyone deserves access to such exquisite and rare beauty. Growing up running the aisles of greenhouses, surrounded by chrysanthemums and freesia, our founder's childhood solidified his belief in the importance of creating beauty and passing it along. Today, we carry on this core belief by partnering with artisans and artists across 15 different countries to bring ancient design techniques and innovative beauty to your doorstep. We hope to preserve the wonder of a childhood among the flowers by rekindling your imagination for all the ways a well-placed bloom can make the world a more beautiful place.

# ceramics

One of the world's most ancient artforms, Ceramics date back thousands of years. Humans discovered early-on that the clay of the earth could be mixed with water and fired in a kiln to form objects both decorative and useful. This artform remains a key industry in specific regions throughout the world. Each of our ceramic's clay varies depending on the region of the earth it was created in, meaning each piece tells the story of its origins. Whether thrown on a potter's wheel in Portugal or hand painted at a woman-owned and operated factory in Vietnam, beauty and artistry can be discovered in each piece.

### reef pot

Bring the beauty of the coral reef to your next design with the unique Reef vase. This look is achieved by adding styrofoam balls to the clay during the firing process, resulting in a natural textured finish.

VERTICAL GARDEN

Accent Decor's Garden-inspired Easel Display

**WHAT YOU NEED:**  
2 vertical gardens  
2 hinges + screws  
1 metal support bar

Attach the two vertical slats together with hinges and add a metal support bar for an instant double-sided display. The hinges make it suitable for transporting to an event or storing until ready to display.

**A VERTICAL GARDEN**

## terrazzo

Segments of marble, granite, and quartz are mixed together with a cementitious binder.

Because of its natural porous nature this product is not 100% watertight.

Includes hard plastic liner.

## □ □ a s s

Watching a craftsman form a piece of molten glass into its finished product as a vase is mesmerizing. He must always be moving, shaping, and blowing. Over thousands of years, this art-form has been perfected, and the tradition gets carried on in historic towns throughout the world. We source the highest quality glass and partner with artisans that value the tradition of their craft, while also looking for innovative techniques and design-concepts. The result is high-quality, timeless pieces that will elevate your designs beyond ordinary.

Across the globe, artisans draw on ancient traditions and innovative techniques to create a wide-ranging variety of metal pieces. Our goal is to get as many of their beautiful pieces to our customers as possible. From unique burnished finishes to timeless golds, our range of metal products bring elevated style to your next centerpiece. Offering a range of sleek, modern designs and classic silhouettes, we have the metal piece you need to make your event one to remember.
