Introducing:

Express Universal Clear 300

Keep it Simple: Don't Cut Your Stems!
Express Universal Clear 300 is our new technology that eliminates the need to recut your stems.

A unique and innovative flower food solution for all flower varieties that helps keep flower bouquets and arrangements fully hydrated and fed without recutting the stems and with the same performance you have come to expect with our FloraLife Crystal Clear®.

- Saves time: NO need to recut
- No Mess: No cut ends to clean up
- Same long-lasting flower arrangements you come to expect from FloraLife® products

Features & Benefits

- Encourages the flower to properly start opening, showing vibrant colors
- Eliminates steps, quick and easy—no cutting, less waste
- Floral designs remain true with less handling
- Can be used on all flower varieties and foliage greens, as well as with flowers that are uncut, or have been newly cut. As with all new product, we recommend you do in house trialing for confirmation based on local conditions such as water type, sanitary conditions and varieties used. Difficult to hydrate varieties may react differently to unique conditions.

Express Universal Clear 300 Test Results

Performance test on various fresh cut flower varieties—A revolutionary new product that allows you to eliminate the step of recutting your flowers

Floralife® flower food solutions are designed to help keep flower bouquets and arrangements fully hydrated and provide the correct amounts of nutrients to keep them looking fresh. With the introduction of Express Technology products and now Express Universal Clear 300 – a unique formulation for all flower varieties – there is no need to recut stem ends before placing them directly in the solution. Floralife® Express Universal Clear 300 can be used wherever you normally use Floralife Crystal Clear®.

Results

Conclusion

It was observed that the flowers treated with Floralife® Express Universal Clear 300 without recut stem ends gave equal vase longevity when compared to the current Floralife Crystal Clear® formula with the stem ends recut.
